

Flower Close-Up in Color (231)

Warm color scheme

Assignment Due Date:

Week 9, Monday, 03-05, 2 pm

Media:

18" x 24" Heavyweight Sketch Paper, Colored Chalk pastels (supplemented as needed with brighter pastels), a colorful live flower.

Assignment:

Lay the flower on some paper. Ideally you will lay them/it on colored paper that is in your color scheme. If you don't have the right color, use white but invent the color of the background for your drawing. Based on the color of your flower, decide on a color scheme:: monochromatic, analogous, complimentary or triadic.

Thumbnailing is recommended to find an excellent composition. Consider letting your flower go beyond the edges of the page in some areas. Think about the principles of design: positive and negative space, balance, repetition, rhythm. unity and variety.

On the final drawing:

Very lightly sketch the flower in a light color (yellow or orange or light green depending on the color of the candy. Lay out the entire composition before coloring in. If the line drawing has composition problems, correct them before continuing with the color values. Use layered mixtures of your colors whenever possible to obtain the colors that you observe in the flower.

Don't forget to use a harmonious color as your background and that shadows on that background will be a combination of the color of the background and the color of the shadow-not one or the other.

DO NOT USE BLACK AT ALL! CREATE LOW VALUED COLORS MAINLY BY LAYERING BLUES AND VIOLETS
